# HOPE HOMES: ROADMAP

Together We  
Change Lives

# HOPE HOMES: STEP BY STEP

Hope Lives Here

## Step 1

Most often we are able to identify the right local teams to work with because they are already actively involved in ministry to orphans / underprivileged children.

## Step 3

Children are found and referred to us through a wide range of circumstances. Including: police reference, rescue from abortion, finding children in slums, and many are abandoned by one or both parents and have no one to give them proper care.

## Step 5

We raise support through sponsorships for each of our children. The goal per child is \$80 per month. With a home of 12 children, this equals \$960 per month which is enough to cover all expenses for the home, including staff salaries.

A round figure of \$1,000 is the monthly operating cost for each home.

## Step 2

Of our current purchased properties the average cost including setup (renovations, furnishing, etc.) is about \$75,000.

## Step 4

Education is a major part of our efforts as well. Most of our children never attended school, so we get them enrolled as soon as we're able. Ideally we will have schools established at each of our Hope Home locations, which has already been done at our home base in Gangtok, Sikkim.

## Step 6

Multiply!

# HOPE HOMES: SUPPORT STRUCTURE

Pure and undefiled religion before God the Father is this: to care for orphans...  
JAMES 1:27a

The sponsorship amounts of partial (\$40) and full (\$80) are different commitment levels, and once all of our children have full sponsorship it covers all of the monthly operational expenses of the Hope Home.

This depends a bit on the USD to Rupee exchange rate, which has been very good lately.

Faith Begins

Rescue

The expenses that are covered include the following:

Partial Sponsors

These are averages that vary slightly from home to home depending on the individual setup and requirements.

Sponsorships

Full Sponsors

- Food = \$30
- Staff salary = \$15
- Household expenses / support staff = \$10
- Rent (where applicable) = \$10
- Education = \$10
- Recreation / Entertainment = \$5

Business Partners

Fund Raisers

So, when all of the children are sponsored and these amounts are each multiplied by 12, which is a full house, that gives us the approximate total expense for each category. Other miscellaneous expenses would be extra.
